“Apply” Slide

- Next week you should:
  - Understand what types of RF technologies your organization uses/needs
  - Identify gaps and/or areas where use overreaches need
- In the first three months following this presentation you should:
  - Determine what types of wireless technologies and attack vector present the most significant threats to your organization
  - Identify the implications of such threats and prioritize them based on impact
- Within six months you should:
  - Define a policy of what RF technologies and behaviors are allowed and prohibited in your environment
  - Introduce ways to detect and mitigate prohibited devices/behaviors
